

Beautiful Plantation Shutters, Expertly Installed

Made for your windows. Designed for your home.

Your guide to materials, finishes and styles

WELCOME

Shutters designed around you

Independent expertise. Thoughtful design. A beautifully finished home.

Experience in every detail

Shutter Master has been independently owned since 2010, building on years of practical experience in measuring and installing window shutters. We have fitted shutters for thousands of customers, from modern apartments to period homes and unusually shaped windows.

Our approach starts with how you use your rooms. We help you choose the material, panel layout, louvre size and finish that suit your home, then measure carefully and install with attention to the details.

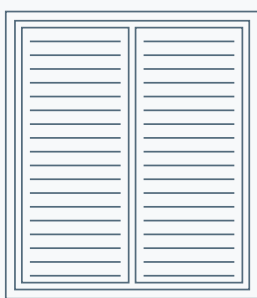

What we stand for

Honest advice • Careful measuring • Expert installation
Clear quotations • No pushy sales • Support after installation

STYLE GUIDE

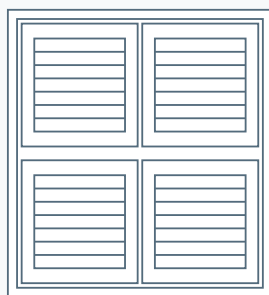

Find your shutter style

The same window can work in different ways. We help you choose the right layout.

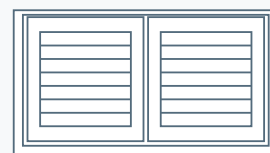

Full height

One set of panels covers the whole window for a clean, continuous look.

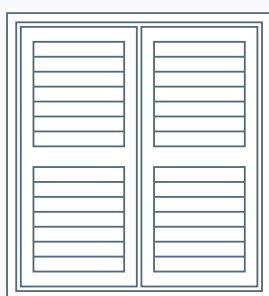

Tier on tier

Separate upper and lower panels open independently, offering flexible privacy and access.

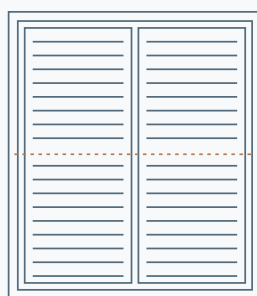

Café style

Panels cover the lower portion of the window, leaving the upper glass uncovered.

Full height with mid-rail

A horizontal rail divides the louvres within a single full-height panel.

Split louvres

Upper and lower louvres tilt independently, without a solid mid-rail.

Illustrative layouts. Panel sizes, opening arrangements and available options are tailored to your windows and chosen material.

For windows beyond the ordinary

Bay window shutters

Designed around the angles and individual sections of your bay, with a consistent finish across the opening.

Patio & bi-fold door shutters

Panel and track arrangements are planned around door access and the way you use the space.

Special-shaped shutters

A bespoke solution for suitable arches, circles and unusual openings, subject to material and design.

MATERIALS & FINISHES

Hardwood

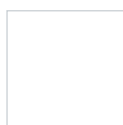

A versatile choice for everyday living.

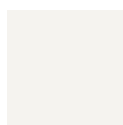

Our standard Hardwood range brings the natural appeal of timber to a clean, made-to-measure shutter. Choose a simple white finish and a layout that works around your light, privacy and access needs.

Natural timber construction • Three painted finishes • Bespoke panel layouts

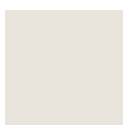

Available finishes

Pure White

Silk White

Lustre

Usually 10-11 weeks | 5-year shutter warranty

Lead times are a guide and may change due to supply or delivery delays.

Photography illustrates design ideas; confirm material and finish with our samples.

MATERIALS & FINISHES

Hardwood ABS

Timber at its core. An ABS outer finish.

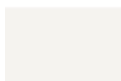

Hardwood ABS combines a timber core with an ABS coating. It is a distinctive option within our range, with a wider selection of painted finishes. We will advise on suitability for your rooms and the specification that best fits your windows.

Timber core with ABS coating • 13 painted finishes • A practical alternative to conventional painted hardwood

Available finishes

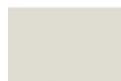

Pure White

Silk White

Lustre

Dusk

Oyster

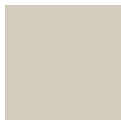

Ivory Lace

Sea Perl

Picaso

Hall Grey

Stone Grey

Brown Gray

Antracite

Black in Paint

Usually 10-11 weeks | 10-year shutter warranty

Lead times are a guide and may change due to supply or delivery delays.

MATERIALS & FINISHES

Premium Hardwood

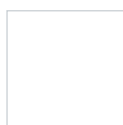

More choice. A finish that feels yours.

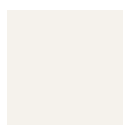

Premium Hardwood offers our broadest choice of painted and stained finishes. For a more individual scheme, we can arrange a custom paint-code match, subject to approval and an additional charge. Bring your colour ideas to the consultation.

Paint and stain options • Custom colour matching • A tailored finish for your interior

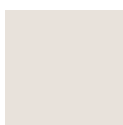

Available finishes

Pure White

Silk White

Lustre

Dusk

Oyster

Ivory Lace

Sea Perl

Picasso

Hall Grey

MATERIALS & FINISHES

Composite

A practical option with a shorter lead time.

Our European Composite option is available in Pure White and can be installed in as little as four weeks. A useful choice when timing matters. We help you assess its suitability for kitchens, bathrooms and other rooms at consultation.

Pure White finish • Practical everyday care • Faster European supply option

Available finishes

Pure White

An alternative Composite option has a usual lead time of 10-12 weeks. We will explain the specification and finish availability for the range quoted.

As little as 4 weeks | 10-year shutter warranty

Lead times are a guide and may change due to supply or delivery delays.

Darkness, privacy & peace of mind

Blackout shutters

A shutter and blackout blind combination gives you more control over incoming light. The blind sits behind the shutter, adding an extra layer for bedrooms and other spaces where darkness matters.

Blackout options are available across our shutter materials, subject to the design and opening. Light can still enter around edges; we will explain what to expect for your windows. Blackout blinds have a separate two-year warranty.

Aluminium Security Shutters

An interior shutter option with a security-focused construction. We assess your openings and discuss the suitable panel layout and locking arrangement.

Ask us about the current finishes, specification, lead time and warranty. These are confirmed for the exact product quoted. Standard decorative plantation shutters are not a security barrier.

Solid panel shutters

A traditional alternative to louvred shutters, with solid panels for a different appearance and privacy arrangement. Ask us about the available designs for your home.

INSTALLATION STORIES

Homes with a story

Three projects that reflect the care we put into each installation.

Burghfield · West Berkshire

Pure White Hardwood, 64mm louvres and hidden tilt. An uneven, pitched conservatory needed particularly careful measuring, alongside a shallow living-room bay and two bedroom windows.

West London · Apartment refurbishment

Café-style Hardwood shutters in Ivory Lace, with 64mm louvres and hidden tilt. A coordinated finish for a refurbished apartment, supplied for a returning customer.

Woodstock · Oxfordshire

Pure White Hardwood shutters with 64mm louvres and hidden tilt throughout a new-build home, including patio door shutters. Design, access and a consistent appearance were central to the layout.

“Excellent from the first phone call to the finished job. Highly recommended.”

Stephen, Woodstock · customer review

YOUR CONSULTATION

From first ideas to the final fit

01 A conversation about your home

Tell us about your rooms and priorities. We arrange a convenient consultation and discuss what you would like to achieve.

02 Design, samples & measuring

We bring samples, explain the materials and styles, and take accurate measurements. You do not need to measure your windows in advance.

03 A clear quotation

Your quotation sets out the chosen specification and includes installation. We explain the expected lead time and answer your questions.

04 Made to measure, expertly installed

Once your order is ready, we arrange installation and show you how to operate and care for your shutters.

05 Aftercare & support

Dust regularly and clean with a slightly damp microfibre cloth. Avoid strong detergents and bleach. Contact us if anything needs attention.

Covered warranty repairs include labour and travel, subject to the warranty terms. Warranties apply to the original customer and are not transferable. Ask us for the full terms.

Let's find the right shutters for your home.

Book a free home consultation. Explore the samples, discuss your ideas and receive a quotation including installation.
